About Me

Computer Science graduate with hands-on experience in Full-Stack Development and Large Language Model evaluation workflows. Skilled in Python, SQL, JavaScript, React.js, Node.js, Flask, and databases. Experienced in building web applications, reviewing AI responses, prompt testing, data annotation, and supporting LLM post-training tasks.

Education

Kamala Institute Of Technology and Science 2022 – 2026
B.Tech in Computer Science and Engineering CGPA: 7.8/10

Sri Sai Junior College 2020 – 2022
Intermediate MPC 76%

St. Mary's High School 2019 – 2020
10th Standard CGPA: 10/10

Experience

LLM Post Training Intern Mar 2026 – May 2026
Ethara AI

- Contributed to data preparation and evaluation tasks supporting Large Language Model post-training workflows.
- Reviewed AI-generated responses for accuracy, relevance, coherence, and adherence to quality guidelines.
- Rated model outputs and performed comparative response assessments to support model evaluation.
- Wrote and tested prompts across different scenarios to analyze model behavior and response consistency.
- Annotated datasets and labeled AI outputs for training, validation, and quality improvement tasks.
- Tested AI models, identified response issues, and documented findings for model quality enhancement.
- Collaborated with teams through Slack and managed assigned project tasks using MultiMango.

Technical Skills

Languages: Python, SQL
Frontend: React.js, HTML5, CSS3
Backend: Node.js, Express.js, Flask
Databases: MySQL, MongoDB
Cloud & Tools: AWS EC2, S3, VPC, Git, GitHub, Slack, MultiMango
AI & LLM Skills: Prompt Engineering, LLM Evaluation, Data Annotation, Response Rating, Model Testing, Quality Assurance

Projects

TARA E-Commerce Website

- Developed a full-stack shopping platform with login, products, cart, checkout, and payments.
- Built REST APIs using Node.js, Express.js, and MySQL.
- Integrated Razorpay for secure payment processing and order verification.
- **Technologies:** React, Node.js, Express.js, MySQL, Razorpay.

AI Summarizer App

- Built a web app that generates concise summaries from user-provided text.
- Developed frontend using React, TypeScript, and Vite.
- Implemented authentication, Edge Functions, and summary history using Supabase.
- **Technologies:** React.js, TypeScript, Vite, Supabase, OpenAI API.

Hire Vision

- Built a real-time interview assessment platform using computer vision and audio analytics.
- Developed confidence, eye-contact, posture, and facial-expression evaluation modules.
- Created recruiter and candidate dashboards with scoring and scheduling features.
- **Technologies:** Python, Flask, MongoDB, OpenCV, MediaPipe.

Certifications

- HTML5 Course Completion Infosys Apr 2024
- Cyber Security IBM x Microsoft Aug 2024
- AI with Cloud Computing Brain O Vision Apr 2025
